SKILLS:

Technologies:- C++, JAVA

Data Base:- MySQL

Web Development:- HTML, CSS

Tools:- Git

Coursework:- Data Structure And Algorithm, Operating System, DBMS, OOPS.

ACADEMIC PROJECTS:

Online Examination System (30 Jan'14 - 30 May'14)

- Online Exam is proposed for both institutes and students. Institutes can register and host online exam. Student can give the exam and view their results.
- This web site is an attempt to remove the existing flaws in the manual system of conducting exams.

- The foremost requirement of this system is the security. The security measurement will be implemented in terms of “User-Id”, “Password”.
- This web-site helps to exam surveillance can be performed with video cameras without any physical invigilator.
- **Technology used:-** JAVA

Flighter Aircraft Game (21 Jul'14 - 11 May'15)

- Flighter aircraft game is traditional and always popular in different kind of mobile platforms.
- The user of game controls the aircraft to shoot the enemies by simply tapping on the player aircraft and avoid the enemies by tilting the device left or right.
- The game involves too much objects such as aircraft, barriers and enemies, missiles and score calculation.
- The aircraft and backgrounds movements are figure out to display how the objects turn up.
- The reaction of shooting is developed to destroy enemies and barriers and summing up the score.
- This game application uses the accelerometer and collision detection technique.
- **Technology used:-** ANDROID JAVA, XML

SHOPIMY : VOCAL FOR LOCAL (06 Nov'23 – 02 March'24)

- Our mission is to provide a platform i.e (Online shop management system) where local vendors can sell their products online, reaching a wider audience and increasing their sales.
- Local vendors are a growing segment of the market, with a demand for unique, locally-made products.
- There is a gap in the market for an online platform that connects these vendors with customers.
- A few competitors exist, but none specifically cater to local vendors.
- **Technology used:-** JAVA, HTML, CSS, BOOTSTRAP, MySQL.

TRAINING AND INTERNSHIP:

- I had done training on “HTML, CSS” organized by UNIVERSAL INFORMATICS at LNCT, INDORE.
- I had done internship on “ANDROID” by ADI Soft Tech Pvt. Ltd., Indore at LNCT, INDORE.
